Acquisition Opportunity: Turnkey Dairy Processing Plant

Opportunity Overview

SC&H Capital's special situations team has been retained to find an immediate buyer for a turnkey dairy processing plant located in Hugoton, Kansas. The state-of-the-art, 129,942 ft² facility produces ultra filtered whole milk, cream, ultra filtered skim milk, cheese, and butter. The plant is owned by Kansas Dairy Ingredients ("KDI"), a manufacturer of concentrated milk products that recently halted production to seek a buyer for the real estate, property, and equipment.

The site has a daily milk intake capacity of approximately 2,200,000 lbs. and a daily output capacity of approximately 135,000-150,000 lbs of cheese, 40,000 lbs of butter, 152,000 lbs of cream, 2,000,000 lbs of ultra filtered ("UF") products (whole & skim), resulting in 500,000 lbs of UF milk per day, and 50,000 lbs of liquid whey protein concentrate 60.

Potential buyers are presented with the opportunity to purchase the facility with the equipment in place, equipment removed, or the equipment only (in bulk).
